New Detector Tube from Uniphos Envirotronic

Description:	Methanol - 100
Part Number:	D5094818
Measuring Range:	100-2,500 ppm
Tests per Box:	10
Number of Strokes:	10 strokes, for 100-2,500 ppm
Time per Stroke:	15-25 seconds
Discoloration:	Red to grayish-green
Shelf Life:	2 years
Applications/Use:	<p>Methanol is predominantly produced from natural gas by reforming the gas with steam. Applications for this tube include:</p> <ul style="list-style-type: none"> • Methanol is a feedstock to produce acetic acid and formaldehyde, which can be used in the production of adhesives, foams, plywood, solvents and windshield washer fluid • Methanol is used on its own as a vehicle fuel or blended directly into gasoline to produce a high-octane • Production of methyl tertiary butyl ether (MTBE), an additive in gasoline and dimethyl ether (DME), a clean-burning fuel with similar properties to propane • Nearly 45% of the world's methanol is used in energy-related applications • It is a clean burning fuel that reduces SOx and NOx emissions
Availability:	In stock
